

Warwick Pre-Prep

Nursery Attendance

It is usual that most new children will commence in September with five half days and then 'grow' into full-time attendance during the year. Increases in attendance will be offered at stages throughout the year.

Children attending the Nursery on a full-time basis will automatically have a hot lunch and the cost of this is included in the fees. Morning session children may stay to lunch and be collected by 12.45pm at the latest, at an additional cost. Some parents may wish their child to take up the full-time option immediately.

Precise staffing levels are established from parents' choices and so we are not able to make changes during term time except in exceptional circumstances. We will accept changes at the end of the first half term in October but after this point it will only be possible to make changes for the start of the spring and summer terms. If you wish to make such a change to your child's nursery attendance for October, please collect a form (before the commencement of the second half of the autumn term) from the main school office or Nursery and then return it to the office. All Nursery parents will automatically be issued with an attendance form for the Spring and Summer Terms, several weeks before the end of the preceding term.

N.B. All children must attend for a minimum of five mornings per week.

I would be grateful if all parents would complete the form below and return it to the Admissions Registrar on admissions@warwickprep.com
